Remarks on Board Sunday Feb. 26.

Commences with light variable airs and fine weather. Employed in setting up rigging, &c. Middle part light winds from the South. Latter part strong winds and squally. Sounded this day 25 fathoms.

Come all young men and young maidens [illegible]
attend unto my rhyme
It is of a lovely damsel
she was famed in her prime
She left the flashing revies
famed to all mankind
It was lovely young Caroline
[illegible]

Young Henry was a Highlandman
a courting to her he came
which when her parents [illegible]
they did not like the same
[illegible] they got prudent
[illegible]
[illegible]
[illegible] me to run away

I will go to London fair
and there we will spend
our days with lovely Caroline.
[illegible]
[illegible]
[illegible]

And away went young Caroline
to Edinburgh town.
[illegible]

[illegible]
[illegible]

She cried aloud with tears
[illegible]
so you will break the heart of Caroline
[illegible]

[illegible]

Once a half a year
When cruel hearted Henry
Roved most severe
Says Henry I'll go to sea
[illegible]
Sailing your way without delay
Back to Edinborough town.

The fleet is getting out
And to Spithead dropping down
And I will join the gallant fleet
To fight for King and Crown
The gallant Turks shall feel no fears
Tho in the waters be drowned
So I never shall return again
Back to Edinborough town.

Many a day she passed away
In sorrow and despair
After she has once like roses
Were grown like the lillies fair
She cried for her Henry
And often times did mourn
Saying and the day that I [illegible]
[illegible] town.

Composed with gasp without relish
This damsel did go
Into the woods to eat such fruit
As on the bushes grew
Some strangers would pity her
And some would on her frown
And some would say why did you stray
From Edinborough town.

Under neath the lofty spreading oak
The maid sat to espy
The watching of the gallant ships
As they were passing by
She gave three shrieks for her Henry
And plunged her body down
And away floated young Caroline
Over the waves so brown.

And in the note a lock of hair
With the words I am no more
But just asleep and in the deep
And the fishes are waltzing around
Where lonely young Caroline.

Under the waves.

From all our hearts we thank you
For the great pleasure
We are sure to see
Your name in print
Your loving friends
Your sincere friends
Your friends ... 1911

From the following Table
find to the Apparent Dist
the Correct Distance by
the Altitudes in the left
the Apparent Distance at
which is found at the top
of the Page
nal Log of the Brow[n]'s Bowditch
count of the sums Apparent
and the sum of the Correc
ons reflecting the 10[s] in each
proportional Log of the first Arc

to the proportional Log of the Brow[n]'s Bowditch
then add the Correct of the D. of Altitude
Centre and the tangent of the Corrected
Dist. then seek reflecting the tens in the index
the proportional log of the 2 Arc - - - - -

If the 1st Arc is greater than the 2nd Arc
and the Dist less than 90° the difference of Arcs is
to be subtracted from the Counted Dist.

If the second Arc is greater than the 1st Arc
and the Dist less than 90° the difference of Arcs
to be added to the Corrected Distance

And when the Dist exceeds 90° the sum of
the Arcs is always to be subtracted from the
Counted Distance
